COMPUTER TRAINING

DeVore Technologies, Inc. is Northeast Ohio's premier business technology training and certification resource. With nearly 20 years experience providing superior computer training, e-learning, and consulting services.

DeVore maintains a full public schedule of desktop and technical classes at our state-of-the-art training center. Our comprehensive, customer-focused solutions include instructor-led training for the most popular desktop applications, as well as curriculum design and training for proprietary software applications. Technical training keeps IT professionals current on the latest hardware and software advances. We also offer custom course development and training management resources to enhance your comprehensive training program.

DeVore's training services include:

- Desktop application training
- Technical training
- Training consulting
- Training management
- Individual instruction –
Deskside Assistance
- Proprietary software training
- Curriculum development & documentation
- Online training/E-Learning: Design,
development, and deployment
- Post-training support

TRAINING ROLLOUTS

Training for enterprise software and system upgrade deployments can be challenging for any organization. DeVore's project teams, software tools and management services help organizations achieve successful IT application rollouts and implementations. DeVore manages rollouts for a wide range of enterprise software packages including custom, proprietary, and packaged applications.

Our training rollout services include:

- Rollout project management
- Skills gap analysis
- Course design
- Documentation design
- Web-based course scheduling system
- Training delivery
- Web-based course evaluation
- Help desk and post-training support

COMPUTER TRAINING ROOM RENTALS

DeVore Technologies provides some of the best equipped and maintained IT training facilities in the region. Our rooms offer excellent accommodations for desktop and technical training sessions, meetings, and seminars. Facilities are conveniently located within a 30 mile radius of the Cleveland Airport, downtown Cleveland, and downtown Akron.

DeVore provides comfortable meeting and training rooms that have been designed to meet the most demanding space requirements. All of our training rooms include the latest technology in workstations, internet access control, and speed.

Our amenities allow for your meeting and training engagements to be conducted in a comfortable atmosphere.

Training Facility Features:

- High-spec Pentium IV core-duo PC's with 4GB RAM
- Workstations meet Microsoft level 6 specifications
- High-speed internet connections
- Wireless internet access
- Complete on-site audio-visual department
- Latest model flat panel monitors
- On-site network engineers
- On-site setup with certified technical support
- Capacity for up to 28 students and instructor
- Free parking
- Restaurants within one mile

Classrooms are configurable and can accommodate large or small groups in conference or classroom style. DeVore Technologies welcomes daytime, evening, and weekend sessions and will manage all of your logistical needs. We provide the highest-quality refreshments, meals, transportation, and accommodations. Continental breakfasts and afternoon refreshments are complimentary at every event.

Think of DeVore Technologies for your webinars, video conferencing, online training, or to host your next web-based meeting.

Whether you are a small business, large health care provider, education system, or a non-profit organization, we can provide technical assistance and offer support for your proprietary software needs as well. We can manage groups from 5 to 100 or more.

INTERACTIVE DEVELOPMENT & DESIGN

DeVore specializes in interactive Flash and technology development, as well as online marketing. Our breadth of technical expertise allows us to separate the complexities of technical development from the design and marketing message. Interactive development solutions will mesh your online marketing goals with the latest in delivery methods and allow you to focus on your core mission.

Flash Development & Design

Interactive Flash design includes code and script integrated flash multimedia, flash headers and specialized services.

Usability Consulting & Design

We offer usability testing and Human Computer Interface (HCI) design to ensure your website meets your target audience expectation.

Legacy Content Revision

DeVore will revise and convert content from your current website, offline databases or other sources to your new website.

Search Engine Analysis

DeVore will help you assess the correct search function, whether it is an integrated third party search engine tool or your own specific module.

Competitor Analysis

Comprehensive online analysis of your competitive market, vertical market, regional presence, and online features can lead to smart online strategy decisions.

Accessibility Compliance

Full accessibility based on Section 508 of the Federal Persons with Disabilities Act can be addressed for your site with our consultation and development services.

IT STAFFING

In today's highly competitive hiring environment, finding and retaining qualified technical employees can be a challenge. With over 18 years of experience in the IT field, DeVore Technologies is uniquely qualified to help you recruit the right technical candidate to meet your staffing needs. DeVore specializes in permanent, temporary, consulting, direct-hire, and contract-to-hire IT staffing services.

Our recruitment professionals take a consultative approach to understanding your staffing requirements and source top-quality applicants with the precise skill sets our clients are seeking. Whether you need a .net programmer for a short-term project or a help desk technician for permanent placement, DeVore Technologies has a proven system in place to recruit, screen, interview, and evaluate qualified candidates. As an added feature, we offer web-based time and task management tools to assist clients in managing any personnel project.

Personnel placement includes:

- Application Developers
- Business Analysts
- Database Administrators
- Desktop Support Analysts
- Help Desk Technicians
- IT Managers
- JAVA Programmers
- .NET Developers
- Network Engineers
- Project Managers
- QA Analysts
- System Engineers
- Software Developers
- UI Designers
- Web Developers

THE DEVORE TECHNOLOGIES FACILITY

DeVore Technologies has taken their 18+ years of experience in delivering first-class training classes to a new level in their recently opened facility in Beachwood, Ohio. With the best equipped and maintained training rooms in the region, DeVore adds five-star amenities to enhance learning or working sessions. Large screen projection, fast internet connections, on-site technical support, and complimentary refreshments are just a few benefits of scheduling your sessions at DeVore.

Conveniently located near I-271 and I-480, DeVore is ideal to support both Northeast Ohio-based and out-of-town visiting participants. There are 1600 hotel rooms within one mile of our facility and countless restaurants, many within walking distance.

Our environment is designed in every way to enhance learning. We have comfortable Steelcase and Haworth adjustable chairs, HVAC and heat is individually controlled, halogen lighting, acoustic isolation – we've thought of it all! Each room can accommodate up to 32-50 attendees in a calm surrounding. Classroom break areas are stocked with complimentary refreshments throughout the day.

The office space was originally designed by Dorsky, Hodgson Parrish & Yue, the architectural firm behind the design of Beachwood's outdoor shopping facility at Legacy Village. DHPY focuses on providing innovation and fresh thinking, and those ideas translate into the layout and design of DeVore's new corporate headquarters.

Whether you brown bag, carryout or cater - DeVore has the perfect place to enjoy your lunch, check the news, and gather with your fellow classmates.

WiFi enabled

Our large flatpanel TV brings you weather & news

Complimentary coffee, sodas, and tea

Centrally located to fine eateries

WIFI CAFE

We not only bring great things to life, we bring great food to training! Our on-site wireless DeVore Cafe is a comfortable change from the “eating at your desk” syndrome... Our complimentary breakfast includes a variety of fresh fruits, hot bagels and pastries, a selection of fine teas, coffee center, and juices to start your morning. We can provide delicious catered lunches from fine area restaurants, delivered at your convenience. We have restaurants within our building such as California Salads, Sheu Hei - Sushi, Seven Roses - European Cuisine, and more.

Our flat screen TV (s) present news feeds and CNN streaming video. You can even relax in our lobby with The Washington Post, The New York Times, or Smart Business.
