

HTML Introduction – The Fundamental Display Language of the Internet

DEVORE
TECHNOLOGIES

Upcoming Computer Classes

Our class schedule is always current at www.devore.com/training

Prerequisites

- Before starting this class, you do not need any previous HTML knowledge, but you should have at least basic familiarity with using computers and using the web passively (i.e., just looking at it and consuming content). You should have a basic work environment set up (as detailed in [Installing basic software](#)), and understand how to create and manage files (as detailed in [Dealing with files](#)).

Course Objectives

- Learn the basics of web development.
- Learn the difference between HTML and XHTML.
- Learn to create links in HTML documents.
- Learn to add images to HTML documents.
- Learn to create HTML tables.
- Learn to create forms in HTML.

Course Outline

HTML Basics

- HTML stands for Hyper Text Markup Language ☐.
- An HTML file is a text file containing small markup tags ☐
- The markup tags tell the Web browser how to display the page ☐

Elements

- HTML Tag vs. Element
- Nested HTML Elements

Basic Tags

- Heading Tags
- Paragraph Tag
- Line Break Tag
- Centering Content
- Horizontal Lines
- Preserve Formatting
- Nonbreaking Spaces
